WORK EXPERIENCE

Software Developer Intern

Sky IT Solution Pvt Ltd

Jan 2026 – July 2026

- Developed responsive mobile and web application interfaces using **React Native, Next.js and NativeWind**.
- Implemented pixel-perfect UI from Figma designs for multiple real-world client projects.
- Built reusable components, handled navigation flow, and integrated basic APIs.
- Worked on projects including **Doc-App, Biye.co, AllRounder, DailyAstro and UniqueGurukul**.
- Improved frontend responsiveness and user experience across Android and web platforms.
- Collaborated with team members using Git/GitHub and project workflow management.
- Participated in **manual QA testing, frontend bug fixing, Android APK build generation, and UI optimization**.

Associate Software Engineer

PCS Global Pvt.Ltd

July 2025 – Oct 2025

- Worked on MERN stack fundamentals and frontend development tasks.
- Assisted in building React components and basic API integration.
- Gained exposure to MongoDB, Express.js, and team-based development workflow
- Learned MVC architecture, Mongoose schema modeling, and backend controller structure.

SAPUI5 / Fiori Developer Intern

ERP League

Feb 2025 – Apr 2025

- Built a **Sales Dashboard App** with navigation between customer, product, and regional sales views.
 - Created a fully functional **Employee Management App** using the sap.m.Table control and bound to JSON data
 - Integrated JSON and OData models (**e.g., Northwind service**) for real-time data handling.
 - Collaborated with senior consultants to debug issues using Chrome DevTools and SAP debugging tools.
-

PROJECTS

DailyAstro – Mobile Astrology Application | React Native, TypeScript, NativeWind

- Developed pixel-perfect and responsive mobile UI screens with reusable components.
- Implemented keyboard handling, and frontend UI optimization for improved user experience.

Unique Gurukul – Online Learning Platform | React Native, Next.js, Tailwind CSS, TypeScript

- Developed responsive web pages and modern UI layouts based on Figma designs.
- Performed API integration using MockAPI and improved UI consistency, and overall user experience.

Doctor App – Online Doctor Consultation Platform | React.js, Next.js, Tailwind CSS

- Worked on frontend optimization, UI bug fixing, and modern component styling.
- Implemented pixel-perfect and responsive frontend UI screens for doctor consultation workflows.

AllRounder – Social Media Mobile Application | React Native, TypeScript

- Developed responsive social media-style mobile interfaces for photo and video sharing features.
- Implemented interactive UI elements, onPress functionality, and navigation workflows.

Biyeco – Matchmaking Mobile Application | React Native, TypeScript

- Developed responsive UI screens for matchmaking and profile-based interaction workflows.
- Improved mobile user experience and implemented frontend navigation features.
